FN1370-SANITARY - Area 17 - Emergency Closure for Bivalve Shellfish near Ladysmith

---

The Ladysmith WWTP has reported a discharge above the threshold established for
the safe harvest of bivalve shellfish. Effective December 20, 2018 under the
Conditional Management Plan, the following Emergency Closure, prohibiting
bivalve shellfish harvest for any purpose, is now in place in the following
area:

The Conditionally Restricted area within Sanitary Closure 17.1 in Ladysmith
Harbour has reverted to CLOSED status. Licensed depuration and relay are now
suspended by license condition in the Conditionally Restricted area described
as:

That portion of Ladysmith Harbour inside a line that starts at an unnamed point
of land at 48°58.97' north latitude and 123°46.37' west longitude northwest of
Sharpe Point, thence westerly to a point in water at 48°59.02' north latitude

and 123°47.03' west longitude, thence northerly to a point on land in Sibell
Bay at 48°59.57' north latitude and 123°46.88' west longitude, thence following
the shoreline along the high water mark to the point of commencement. [NAD 83]

And:

That portion of Ladysmith Harbour inside a line that starts at a point of land
at Hunter Point at 48°59.51' north latitude and 123°47.18' west longitude,
thence southwesterly to a point on land on the islet off the westernmost end of
the easternmost Dunsmuir Island at 48°59.45' north latitude and 123°47.28' west
longitude, thence following the northern shoreline high water mark of the
westernmost Dunsmuir Island to the westernmost point at 48°59.59' north
latitude and 123°47.73' west longitude, thence easterly to a point in water at
48°59.61' north latitude and 123°47.51' west longitude, thence northerly to an
unnamed point of land at 48°59.80' north latitude and 123°47.78' west
longitude, thence following the shoreline along the high water mark to the
point of commencement. [NAD 83]

And:

That portion of Ladysmith Harbour inside a line that starts at a point of land
at 48°58.71' north latitude and 123°47.92' west longitude, thence northerly to
a point in water at 48°58.94' north latitude and 123°47.77' west longitude,
thence northwesterly to a point in water at 48°59.12' north latitude and 123°
48.04' west longitude thence westerly to a point on land at 48°59.13' north
latitude and 123°48.38' west longitude, thence following the shoreline along
the high water mark to the point of commencement.[NAD 83]

Note that this notice does not describe other sanitary closures which may be in
effect, or Paralytic Shellfish Poisoning (PSP, red tide) and other marine
biotoxin closures. Detailed bivalve shellfish closure information and maps are
available at our website:

Detailed bivalve shellfish closure information and maps are available at our
website:
