Sanitary/Other Contamination Closures

Subject:

FN1246-SANITARY - Area 17 - A portion of Emergency Closure for Bivalve Shellfish near Ladysmith - now
revoked

Effective November 25, 2021, harvest of bivalve shellfish for licensed depuration and relay may now
resume within the Restricted areas only in Ladysmith Harbour.

Licensed depuration and relay within Sanitary Closure 17.1, remain suspended by license condition in
the Conditionally Restricted area described as:

That portion of Ladysmith Harbour inside a line that starts at an unnamed point of land at 48°58.97'
north latitude and 123°46.37' west longitude northwest of Sharpe Point, thence westerly to a point in
water at 48°59.02' north latitude and 123°47.03' west longitude, thence northerly to a point on land
in Sibell Bay at 48°59.57' north latitude and 123°46.88' west longitude, thence following the
shoreline along the high water mark to the point of commencement. [NAD 83] and that portion of
Ladysmith Harbour inside a line that starts at a point of land at Hunter Point at 48°59.51' north
latitude and 123°47.18' west longitude, thence southwesterly to a point on land on the islet off the
westernmost end of the easternmost Dunsmuir Island at 48°59.45' north latitude and 123°47.28' west
longitude, thence following the northern shoreline high water mark of the westernmost Dunsmuir Island
to the westernmost point at 48°59.59' north latitude and 123°47.73' west longitude, thence easterly to
a point in water at 48°59.61' north latitude and 123°47.51' west longitude, thence northerly to an
unnamed point of land at 48°59.80' north latitude and 123°47.78' west longitude, thence following the
shoreline along the high water mark to the point of commencement [NAD 83] and that portion of
Ladysmith Harbour inside a line that starts at a point of land at 48°58.71' north latitude and
123°47.92' west longitude, thence northerly to a point in water at 48°58.94' north latitude and
123°47.77' west longitude, thence northwesterly to a point in water at 48°59.12' north latitude and
123°48.04' west longitude thence westerly to a point on land at 48°59.13' north latitude and
123°48.38' west longitude, thence following the shoreline along the high water mark to the point of
commencement. [NAD 83] [Sanitary Closure Map 17.1]

Note that this notice does not describe other sanitary closures which may be in effect, or Paralytic
Shellfish Poisoning (PSP, red tide) and other marine biotoxin closures.

Detailed bivalve shellfish closure information and maps are available at our website:
